

Town of Monroe
Recycle Committee

July 14, 2020

Meeting was held at the Monroe Town offices building at 6:30 pm
Members present were Rocky Bunnell, Alice Frazer, Keith Merchand, Audrey Dimatties and all of the select board, Justin Bradshaw, John Blanchard and Oren Remick

We were all brought up to speed as to what has been done since our last meeting – we have bought our own containers and they have been revamped to accommodate the products to go into them.

Our products will have to be sorted and not just thrown into the container as we do now – there will be sign posted as to what and where.

There is a possibility that we may have volunteers there from time to time to help get this going in the right direction. Anyone wishing to help with this can contact the Town office or call me at 638-4919

We are planning to work with the Littleton transfer station as to them taking our goods

If this program is used properly our costs could be reduced by a lot.

There will be a letter sent postal patron on what products we will be accepting and how our new system will work – this should be done soon to give people time to observe.

We also would like to have any more community members join our group or at least come to our meetings

Once again, we can only recommend that this program is for Monroe residents only – the same as our large trash days and the tire program

Adjourned at 8:00pm

Respectfully submitted by Keith Merchand – chair of the committee

IF WE WORK TOGETHER WE CAN MAKE THIS WORK
