KEEPING IT LOCAL

Ray and Evelyn Richer are a talented pair of artists.

Ray has specialized in wildlife photography with a focus on loons for over 20 years. He has produced a documentary program called: "Loons at the Nesting Site." His work has been published in the National Wildlife Magazine and he also has worked in conjunction with the Vermont Institute of Natural Science and Vermont Center for Ecostudies providing shows and photos for their publications.

Evelyn, a lifelong artist, specializes in portraits of both wild and domestic animals. Her pet portraits are lifelike and done entirely by hand.

See their work displayed at Farm to Fire or visit them during the Town Wide Yard Sale (they try to set up at their Harleyview Drive home every year.) For more info regarding their services or artwork email: rloonnest@gmail.com

NEIGHBORS HELPING NEIGHBORS

The town clerk's office is often asked if they know of any young people that do odd jobs such lawn mowing, window washing, weeding, raking, etc.

Are you a teen (or know one) who would like to help a neighbor and make a little money while doing so? If so, contact the town clerk's office to be added to a list of people that they can give to community members who ask. A flyer to hang up around town is a great way to let people know what you do and how to contact you (hang at town office, town hall, library, store and post it to the Monroe, NH Community Facebook page)

Are you a homeowner and find yourself in need of a helping hand? Reach out to the town clerk's office to see if there is someone that can help you out.

 **IT OUT AT THE LIBRARY**

DID YOU KNOW?

The building at 19 Plains Road has undergone many changes since it was first built. It started as a single story schoolhouse in the early 1800's and now has two stories and a complete basement. This is the only picture we have that predates its current look. Do you have any pictures that show it any differently? We'd love to scan them to include in a display we're working on.
